

## Features & Benefits

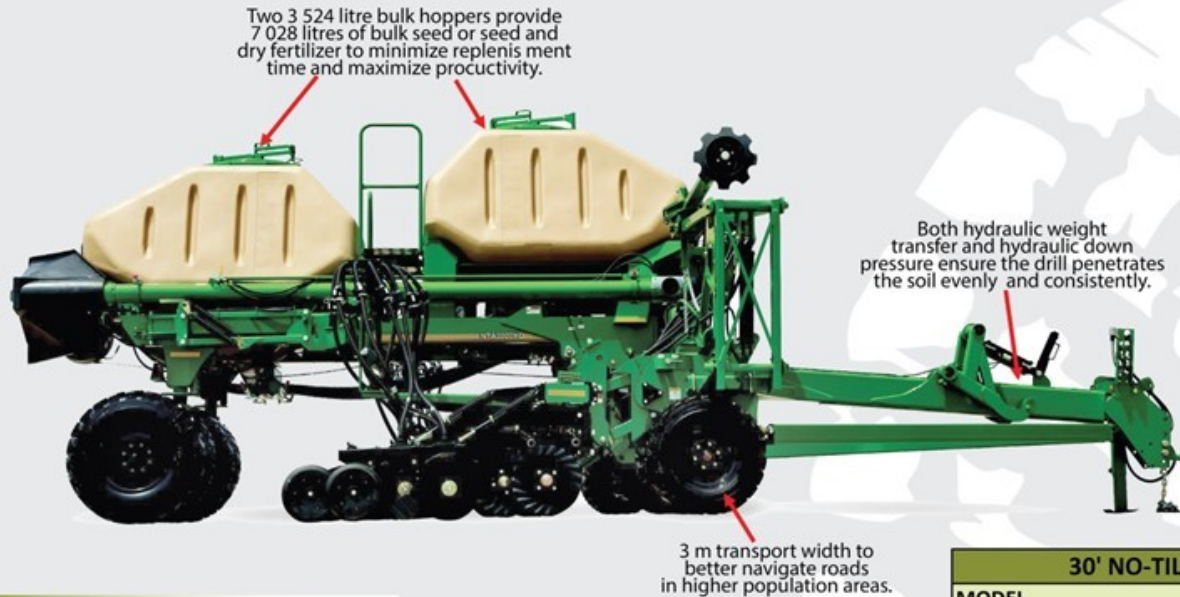

**NARROW TRANSPORT** - Transport width is just under 3m.

**HIGH-CAPACITY HOPPERS** - Two (2) 3 524 l hoppers, wide walk boards, and ladders combine to make an air drill that keeps you in the field.

**HYDRAULIC DOWN PRESSURE** - The NTA-3007 Air Drill features a unique hydraulic down-pressure system which, through parallel linkage, maintains opener-to-ground geometry.

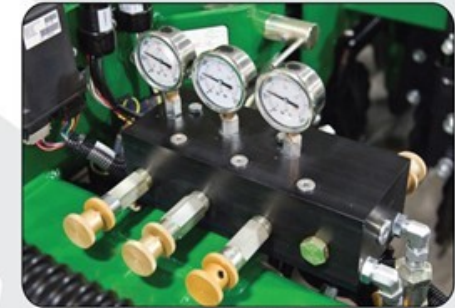

### MORE ABOUT THE NO-TILL NTA-3007 (NARROW TRANSPORT AIR PRESSURE):

The NTA-3007 is a highly productive no-till pneumatic planter designed for the average farmer. The working width is 9.14 meters and there are two bins of 3,524 liters each for seed and/or granular fertiliser.

The planter consists of three sections that can fold up to 3 meters for road transport or to move through farm gates. The planter uses Great Plains' 07 series openers, which move independently of the cutters.

The double disc opener is made of 4 mm steel and the blades are 34.3 cm in diameter. Each disc rotates on a 205 triple sealed bearing. Great Plains' seed tubes are uniquely designed to ensure that the seed is placed in exactly the right place in the plant furrow every time.

**HYDRAULIC WEIGHT TRANSFER** - Ensures that all rows have the same amount of weight available for penetration - even when crossing undulations.

30' NO-TILL AIR DRILL DRILLS	
MODEL	NTA-3007
TYPE	Air Drills
PRIMARY DESIGN	No-Till
ROW SPACING	154 cm
	19.1 cm
	25.4 cm
NUMBER OF OPENERS	60, 48, 36
TYRE SIZE	265/70BX16.5 (transport) 15-19.5 (wing)
kW	180
WEIGHT (APPROX. RANGE)	9 851 - 22 176kg 9 851 - 22 176kg
DIMENSIONS	
MODEL INFO	30' NO-TILL DRILL
WORKING WIDTH	9,14 m
TRANSPORT WIDTH	3 m
TRANSPORT LENGTH	11,2 m
TRANSPORT HEIGHT	3,96 m
OPENER SERIES	07 Series
CAPACITIES	
MAIN BOX CAPACITY	2 X 3 524L
