

Features & Benefits

Hydraulic system - two connection points for Caddy wheels and two connection points for the three point implement.

The 4 hubs can carry 15 tons each

Parralelogram Action: raise or lower any implement horizontally

Optional: The 3-point quick-hitch connection and exceptional lift capacity easy one-person hook-up.

MORE ABOUT THE LEGEND CADDY:

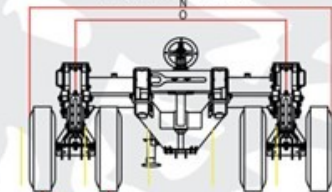

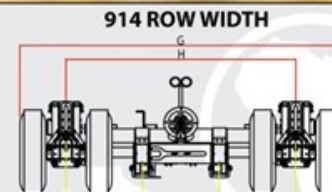

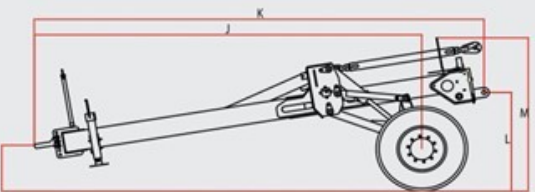

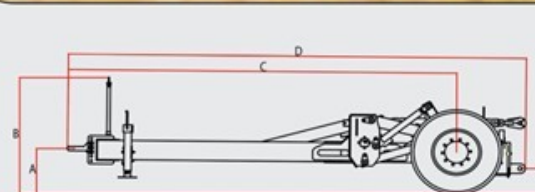

Big-tractor horsepower doesn't do you any good if it can't be used for all your tillage needs. Adjustable tongue height with single-tongue hitch for easily matching the tractor drawbar.

The 3-point implement caddy include a hydraulic connection at the rear of the caddy for easily hooking up trailing tillage tool to virtually all 3-point equipment.

The dual wheels and parallelogram action helps the caddy to move easily over uneven terrain, giving greater floatation and transport stability.

The Caddy Frame is designed to handle 600hp. through its frame.

The Caddy drawbar comes standard with Cat3/4 tow-hitch and a optional CAT 5 is available. The Caddy can lift a massive 10 tons at its ball ends.
