

Sluggem Pellets

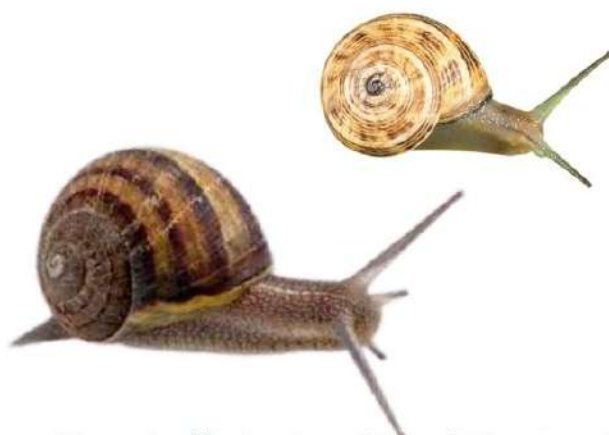

Effective molluscicide and insecticide

Sluggem Pellets slug and snail bait is part of our original tried and tested snail bait range that has served our clients for many decades.

Sluggem Pellets is robust, durable and weather resistant for up to 14 days.

The double active ingredient formulation with 30g/kg metaldehyde and 20g/kg carbaryl will control snails and slugs as well as a broad spectrum of soil and debris-dwelling insects.

The small size of the pellets promotes even spreading and more baits per Ha providing better control.

Use Pellets For Good Protection

- High quality ingredients used in dry pelletising process
- Weather resistant (up to 14 days)
- Highly palatable
- Dual active ingredient providing control of snails, slugs and insects
- Small Pellet size providing more baits per Ha and even distribution
