

Padlock Touch 57

A fingerprint lock for indoor and outdoor use

- Storage of up to 20 fingerprints
- Encrypted storage
- Automatic opening and locking
- Double ball locking, best possible securing of the bracket
- Efficient energy concept: Low consumption and powerful battery
- Coated lock body and bracket
- Hardened bracket
- Shock-absorbing inner workings

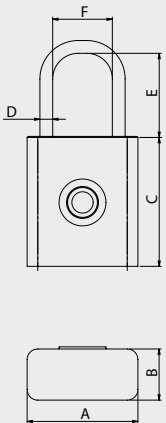

Illustration only

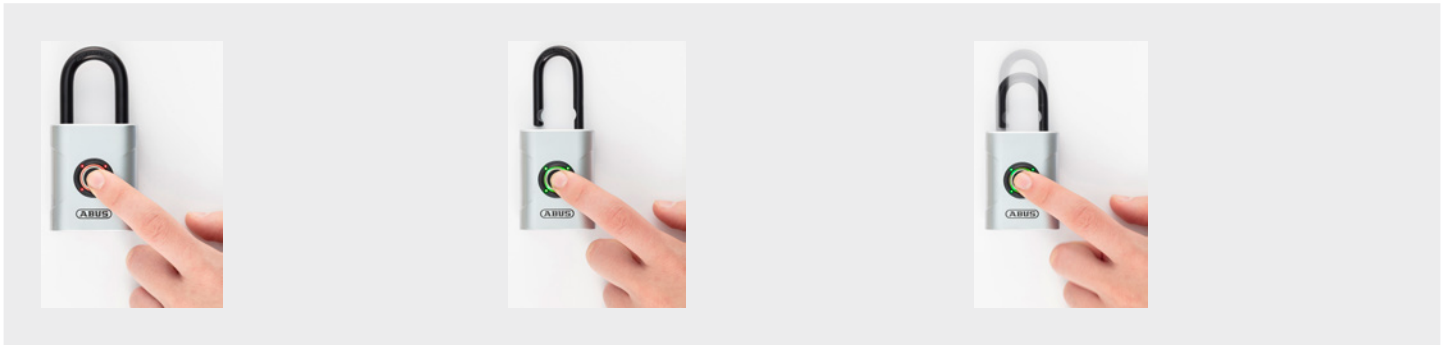

Area of application	Indoors, Outdoors
Type of closure	Keyed different
IP protection class	IP 66, IP 68
Max. number of users	20 PCS
Material of housing	Die-cast zinc
Material of padlock shackle	Hardened steel
Colour of clip	Black
Surface of the buckle	Chrome plated
Housing thickness (B)	23 mm
Housing height (C)	61 mm
Number of rechargeable batteries/batteries	1 PCS
Battery designation	3V CR2 lithium
Min./max. ambient temperature	-10 to +50 °C
Suitable for	Locker, Tool box, Tool trolley, Construction trailer, Trailer, Large waste container, Lock bolt, Hasps

Housing width (A)	Bracket diameter (D)	Shackle height clearance (E)	Shackle width clearance (F)	Art. no.	P. Qty.
45 mm	6.5 mm	30 mm	20 mm	0688 905 045	1
50 mm	8 mm	36 mm	24 mm	0688 905 050	1

Technical Information

Details/Application

Notice

The CR2 batteries are commercially available and have a service life of approx. 1-2 years, which corresponds to approx. 10,000 openings. If the battery loses its power, the lock transmits an SOS in Morse code when operated (3 short flashes, 3 long, 3 short). This message is displayed for the last 5-10 closures, after which the lock will not lock again until a new battery has been inserted. The lock has an internal memory so the saved fingerprints do not have to be resaved.

Dimensions subject to change. Subject to technical changes.
