

REBOKE 11000 AND 15000

Easy and fast unloading

REBOKE 11000 AND 15000

The Reboke 11000 and 15000 grain carts are developed for high performance in the transport of grains. As a result, they ensure excellent performance.

Unloading Tube

Unloading tube with **340 mm** in diameter and unloading capacity of up to **2,500 kg/min**, providing more agility and faster grain unloading process. It's built in carbon steel and mounted to the implement front, providing the operator with better unloading visualization. It is hydraulically activated for feedgate opening and closing and unfolding and folding processes of the unloading tube.

Downspout

The Reboke grain carts feature a fixed downspout and tarp to ensure unloading efficiency.

TRANSPORT

It features a transport width of **3.20 m**, with inverted rims to ease the Reboke travelling on different areas.

REBOKE 11000
LOAD
CAPACITY

11 m³

REBOKE 15000
LOAD
CAPACITY

15 m³

TECHNICAL SPECIFICATIONS

Reboke 11000

Unloading capacity of grains:

2,500 kg/min

Unloading tube:

340 mm

Unloading activation:

PTO, 540 rpm

Unloading tube with 340 mm in diameter

Hydraulic activation

Feedgate opening and closing:

Hydraulic activation

Hopper height

3,340 mm

Unloading height

4,120 mm

Tyres:

18.4-30

Rim options:

18.4-26, 18.4-30, 18.4-34, 23.1-30

Optional feature:

Tarp and tail light

TECHNICAL SPECIFICATIONS

Reboke 15000

Unloading capacity of grains:

2,500 kg/min

Unloading tube:

340 mm

Unloading activation:

PTO, 540 rpm

Unloading tube with 340 mm in diameter

Hydraulic activation

Feedgate opening and closing:

Hydraulic activation

Hopper height

3,692 mm (tyre - 23.1-26) / 3,740 mm (tyre - 23.1-30)

Unloading height

4,160 mm (tyre - 23.1-26) / 4,210 mm (tyre - 23.1-30)

Tyres:

23.1-26 / 23.1-30

Rim options:

23.1-26, 23.1-30

Optional feature:

Tarp and tail light
