	Machine	Hand	Applications
			<b>Drag cutting cartridges when</b> <ul style="list-style-type: none"> <li>General cutting</li> <li>Template cutting</li> <li>Salvaging scrap metal from old appliances, industrial equipment or cars</li> <li>Using a long torch to cut metal skeletons</li> </ul>
			<b>Mechanized cutting cartridges when</b> <ul style="list-style-type: none"> <li>Mechanized cutting, CNC, pipe cutting and track cutting</li> <li>Using an optimized track/carriage solution - delivers cutting speeds of up to 30 ipm, which is 4 times faster on 12 mm (1/2") mild steel than oxyfuel</li> <li>For smoother cut edges - requires significantly less grinding prior to welding than oxyfuel</li> </ul>
			<b>FineCut® cartridges provide optimized cut quality for both handheld and mechanized systems on</b> <ul style="list-style-type: none"> <li>Thinner material</li> <li>Material with a lot of detail</li> <li>Intricate shapes</li> <li>Material in which very tight tolerances are required</li> </ul>
			<b>Max control and Max removal gouging cartridges</b> Max control is designed for more precise metal removal, shallow gouge profiles, and light material washing applications whereas Max removal is for aggressive metal removal, deep gouge profiles, and extreme metal washing <ul style="list-style-type: none"> <li>Pipe Beveler</li> <li>Weld repair</li> <li>Trackburner</li> <li>Back gouging</li> </ul>
			<b>The FlushCut™ cartridges to cut close to base materials</b> <ul style="list-style-type: none"> <li>Remove lifting lugs, pad eyes and temporary welded supports used for material handling.</li> <li>Wash base plate after cutting</li> <li>End cap removal</li> <li>To create welding access holes ("rat hole") cuts in I and H beams attachments</li> <li>Bolt and rivet removal</li> <li>Casting sprue removal</li> <li>Post tension cable tail cuts</li> <li>Removing work platform/ground</li> </ul>
			<b>Cartridge adapter</b> Upgrade to the Powermax® cartridge platform via a torch adapter for Duramax® torches. Take advantage of one simple cartridge vs the five consumable stackup
			<b>Long torch</b> <ul style="list-style-type: none"> <li>Skeleton removal</li> <li>Long reach scrapping</li> </ul>
