

CASTELLARI

RYNO 40

Ryno, the new line of electric shears powered by lithium batteries, is available in three models. The Ryno 40 is for rapid and softer cuts.

This model is equipped with two batteries, in the event of a flat battery you will be able to start again quickly thanks to the quick recharge times.

The bright display indicates the percentage battery charge and the number of total cuts. Ryno shears have two cutting openings: 70% For smaller and faster cuts, 100% for full power cuts.
