# TWR-5 & TWR-1 Weigh Scale & Reader

The weigh scales that read tags.

All in one weigh scale and EID reader (Antenna panel sold separately)

**Market leading touch screen technology** - Full colour, outdoor readable touch screen.

**On board help, 24/7** - The entire product manual is loaded into the product. Help is only one click away.

**Record treatments on the spot** - Animals can be weighed and administered the correct dose rate, all recorded on the weigh scale at the time of treatment. **TWR-5 only**

**Animal notes and note alerts** - Record notes against animals on the spot for later review.

**Animal data analysis on device** - Shows individual weight gain graphs, as well as weight distribution plots for all animals within a weighing session.

**Comprehensive recording of life data and traits** - For farmers wanting to record and review more information than simply weight on their animals. Record up to 9 traits per session. **TWR-5 only**

**Ultimate user experience** - Execution of tasks have been tested to ensure that we deliver the most farmer friendly experience on the market.

**Draft up to 9 groups by weight, weight gain, predetermined EID list or by recorded life data and traits.**  
**Drafting by life data or traits on the TWR-5 only**

**Tough, rugged exterior** - Farm ready, tough design.

**\*Integrated EID reader** - Built in EID reader means the farmer can plug the weigh scale straight in to an EID antenna to record weights and easily scan EID tags. This eliminates the need to purchase a separate EID reader.  
*\*Antenna panel sold separately*

**The complete package, ready to go** - Just plug into your existing load bars and you have everything you need to start weighing:

- Tough and convenient Gallagher carry case
- Mounting bracket
- Micro-fibre screen cloth
- Battery charging cable
- Mains charging cable
- USB drive loaded with APS software
- USB cable for data transfer to PC

**Flexible connectivity options** - Whether connecting to a drafter or antenna via a serial cable, to a PC via USB or utilising the Bluetooth and WiFi wireless options, the TWR scales have every option available.

**Flexible mounting options** - Easy to use sitting flat, or mounted to a vertical surface. The adjustable mounting bracket allows you to easily tailor the viewing angle for optimum visibility.
