Bontera® DYNAMIK-T

High Performing Trichoderma Species
Water-soluble powder concentrate
Registration number: M23 (Act 36 of 1947)

Bontera® DYNAMIK-T is a highly effective and powerful blend of naturally occurring beneficial soil fungi, designed to maintain and stimulate a plant's rhizosphere. It is a concentrated fungal product, formulated as a bio-fertilizer and plant growth enhancer to be used on all crops and in all soil types.

Increases Plant Health

Improved Soil Quality

Robust Root Development

Bontera® DYNAMIK-T is a water-soluble powder concentrate containing a blend of Trichoderma species, formulated in a unique combination of organic acids, making it stable for two years in a wide variety of storage conditions.

Why choose Bontera® DYNAMIK-T?

Highly effective and robust

- works on all crops and in all soil types

Low application volumes

- a little goes a long way

Compatible with chemicals

- no extra applications necessary

Stable for two years in a wide variety of storage conditions

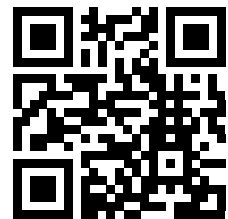

- does not need refrigeration

Registered Plant Nutrient Content:

Trichoderma spp. > 6.5×10^8 cfu/g
