

ORCHARD AGRI

Wire Care Clips

Wire Clips and Nails are a strong, robust and durable alternative to U-nails traditionally used to attach foliage wires to poles. It has an extended lifespan in the high UV conditions of Africa.

Wire Clips and Nails are designed to facilitate easy placement of support wires, making them useful in vineyards and orchards, alike. It is a cost-effective accessory that saves work and time.

Extremely practical for trellising all types of young plants and for closing protective covers. No special tools or knowledge are required.
