

# CASTELLARI

## Pruning Shears

These pruning shears exerts minimum kick back on the wrist through an innovative anvil system while it's curved shape allows the operator to grip the branch during cutting. The ergonomic grip and cutting head aligns with the branch allowing the wrist to maintain a natural position, reducing the effort used by the operator while cutting.

### Features:

- Hot forged aluminium construction
- Blade cavities reduces friction
- Both right-handed and left-handed operation
- 25 mm Cutting diameter
- 210 mm overall length
- Weight = 217.7 g
