

MICRON

Herbidome 350 - 10 Litre

Micron's Herbidome 350 - 10 litre shielded sprayer can be used for a diverse range of weed control cases. A rotating, controlled droplet spray head is housed under a freely rotating resilient plastic dome. Ensuring efficient use of chemicals and significant labour savings. The Herbidome is ideally suited for orchards, vineyards, row crops, areas next to highways and sensitive waterways.

FEATURES:

- Lightweight
- Fully shielded
- Minimal drift
- High workrate - up to three times as fast as a knapsack
- Wider spraying windows

TECHNICAL DATA:

- Weight - empty: 2 Kg
- Weight - ready to spray: 12 Kg
- Width of dome/sprayed strip: 350mm
- Capacity: 10 litres
- Spraying time: \pm 1,5 hours
