

REDSTRIPE IMPACT WRENCH ASSR 20 - 1/2 POWER

High-performance 20V cordless impact wrench designed for demanding fastening tasks. It features a brushless motor for improved efficiency and durability. The compact design ensures easy maneuverability in tight spaces, making it perfect for automotive, construction, and heavy-duty maintenance applications.

Voltage	20V
Tool holding device	1/2" external drive
Maximum torque Forward	700Nm
Maximum torque Reverse	850Nm
No load speed	0 ~ 1800/2400/2900min
Impact rate	0 ~ 2000/2700/3300 bpm
Suitable screw	M10 - M24
Machine weight (bare tool)	1.36 kg

BRUSHLESS MOTOR

NEW

- Compact design, longer motor life, and increased runtime for reliable, efficient operation.
- High Torque Performance: Delivers strong forward and reverse torque for heavy-duty fastening tasks.
- Compact & Lightweight: Easy to handle in tight spaces, reducing user fatigue.
- Durable Construction: Reinforced housing and high-strength gears ensure long-lasting reliability.
- The built-in LED light is perfect for working in dark or poorly lit areas.
- All REDSTRIPE machines are compatible only with RED STRIPE batteries

ADVANTAGES

- 4 Mode Selections: Three-speed plus Auto Stop settings provide the right amount of power for various fastening tasks.
- Auto Stop Function: Automatically stops rotation after loosening bolts, reducing work time and conserving battery power.

APPLICATIONS

Fastening and removing heavy-duty bolts in automotive, equipment, and machinery applications
 Assembling structures and engaging in heavy construction projects
 Performing maintenance and repairs that require high torque
 Handling tasks involving standard and high-strength bolts in metal, steel, or mechanical assemblies

USAGE RESTRICTIONS

Do not expose power tools to rain or wet conditions. Water entering a power tool will increase the risk of electric shock.
 Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases or dust.
 Avoid over-tightening screws to prevent stripping.

STORAGE CONDITION

The recommended storage temperature of tools and battery is from 0°C to 45°C
 Battery Storage:
 - Remove batteries from the tool when not in use.
 - Store partially charged batteries (around 40- 60%) for long-term storage.
 - Avoid contact with metal objects to prevent short circuits.

CROSS SELLING

Impact Sockets
 Socket adapters and extensions
 Tool bags or cases
 PPE products
