Drimol

Reg. Nr. V34430 Wet 36/1947

ECOVITE DRIMOL is a dark to golden brown spray dried molasses coproduct powder suitable for use in the diets of all animal species. It is versatile and supplies a variety of nutrients, making it a desirable on-farm addition to most animal diets.

ECOVITE DRIMOL

- Contains minerals and trace minerals.
- Supplies moderate levels of protein and energy in the form of sugars.

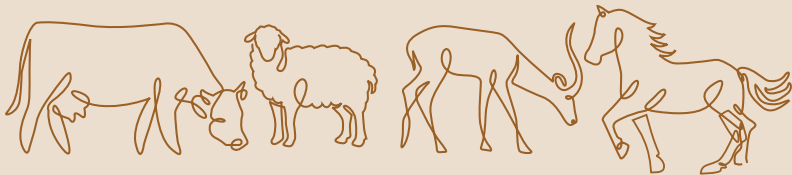

ECOVITE DRIMOL

- Is an ideal pellet and feed block binder.
- Makes feed supplements water resistant when included at sufficient levels.
- Increases feed palatability.
- Imparts a pleasant molasses odour to feeds.
- Has a fine particle size ensuring good distribution in feed blends.
- Keeps feed ingredients from separating in licks and other loose feeds.

ECOVITE DRIMOL

- Is packed in convenient 25 kg PPPE bags with plastic liners.
- Is safe to feed to horses and wild.
- Is free of NPN sources like urea.
- Does not contain growth promotors or other medication.
