Bontera® IMPACT XTRA

Powerful Blend of Soil Active Microbes
Water-soluble powder concentrate
Registration number: M155 (Act 36 of 1947)

Bontera® IMPACT XTRA is a microbial soil amendment product to enhance soil fertility and crop yields, it contains a scientifically formulated proprietary blend of microbes selected for their ability to enhance soil fertility, improve seed germination and plant health in biologically stressed soils.

Bontera® IMPACT XTRA is a water-soluble powder concentrate containing a broad-spectrum blend of beneficial microbes in a unique combination of humic and fulvic acids.

Why choose Bontera® IMPACT XTRA ?

Contains a broad-spectrum blend of microbes

- not just a single microbe

Highly effective and robust

- works on all crops and in all soil types

Compatible with chemicals

- no extra applications necessary

Stable for two years in a wide variety of storage conditions

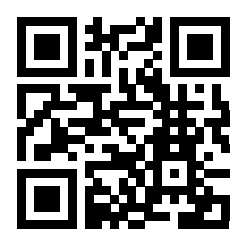

- does not need refrigeration

Registered Plant Nutrient Content:
