

INFACO

F3020 Extension Poles

Working at heights has never been easier. The INFACO design office engineers have completely revolutionized the pole system to propose an innovative and ergonomic solution. Simply attach your F3020 pruning shear to one end of the pole and the battery to the other; your tool is now ready for use. Forget the previous cables and operate your tool using a wireless Bluetooth trigger system housed in the sliding grip, making it very easy to use.

Benefit from optimized balance thanks to the weight distribution, but also from increased battery safety in bad weather.

F3020 Pole

Battery built into the pole (use without a cord)

Telescopic carbon pole:

P9T120B: 1.5 m to 2.2 m

P9T210B: 2.4 m to 4.0 m

F3020 Pole

Battery offset to the vest (use with a power cord)

Telescopic Extension Pole 2.1m - 3.5m
