Spring Chisel Plough

ILGI Spring Chisel Plough does an excellent job in heavy conditions and deep processing. With its strong chassis, tine structure and springs resistant to heavy and difficult conditions and its roller that performs the final breaking and leveling processes, SCP processes soil up to 35 cm and leaves a perfect field surface at the same time.

## SCP

	NO OF TINES	WORKING WIDTH (CM)	TRANSPORT WIDTH (CM)	WEIGHT (KG)	WORKING DEPTH (CM)
