Bontera® FUNGIBAC FS

Microbial Foliar Spray

Liquid concentrate

Registration number: M217 (Act 36 of 1947)

Bontera® FUNGIBAC FS is a liquid microbial product specially developed as a foliar spray to improve plant growth and development, increase foliar nutrient uptake, as well as increase plants' ability to overcome various stresses.

Bontera® FUNGIBAC FS is a liquid concentrate containing a unique broad-spectrum blend of effective and high performing naturally occurring microbes in large quantities formulated in a unique blend of organic acids. Please note that this product is not a pesticide.

Why choose Bontera® FUNGIBAC FS?

Highly effective and robust

- does not need special application conditions

All in-one package

- no wetter or spreaders needed

Compatible with chemicals

- no extra applications necessary

Stable for one year in a wide variety of storage conditions

- does not need refrigeration
